

Imperial Polk Genealogical Society

Goldi May More Genealogy in Less Time

Goldie May is genealogy research software that:
Accelerates your research, sorts out tangles in your family tree,
and keeps you more organized.

IPGS.org

**Handout for Goldi May
Presentation July 2024**

Projects

We can add the project name, the people we are researching, a list of tasks, and any collaborators we work with.

Project Name

People – added manually or by Family Search ID

Tasks

The screenshot shows the Goldie May app interface for a project titled "Log 504-1 - Ann Bradbury". At the top, there is a navigation bar with a hamburger menu, the "goldiemay" logo, a search icon, and a profile icon labeled "PD". Below the navigation bar is a tabbed interface with tabs for "Project & Tasks", "Research Log", "Subway Map", "Canvas", and "Windows & Tabs". The "Research Log" tab is active, displaying a "Notes" section with the text "Research Log 504-1" and "What kind of income did Ann Bradbury (504) and her family have?". Below the notes is a "People" section listing two individuals: "Ann Bradbury" (1856-Deceased • MXMH-CHK) and "George Johnson" (1856-1938 • GRJD-GMN). There is an "Add person" button below the list. At the bottom, there is a "Tasks" section with two tasks: "Research how much a bricklayer makes." and "Research Dressmaking".

Research Logs

We can add research logs either manually or automatically.

We can add an abstract, note, and say if we liked or disliked the page.

The screenshot shows the Goldie May app interface for a "Research Log" entry. At the top, there is a "Log Page" button and a toggle switch for "Automatic logging off" which is currently turned off. To the right of the toggle is an "Add Note" button. Below this is a search bar with a "Search Log" button. The main content area displays a record transcription from "England & Wales Deaths 1837-2007 | findmypast.com". The transcription includes a URL and a personal detail: "Personal Details: Annie was 69 years old at the time of her death, indicating she was born in 1857. Her record is part of the England & Wales Deaths 1837-2007 collection." Below the transcription are interaction options: "Like", "Dislike", "Abstract", and "Delete". The date and time of the log are "26 May 2024, 8:14pm UTC". At the bottom, there is a "Comment" button.

Subway Map

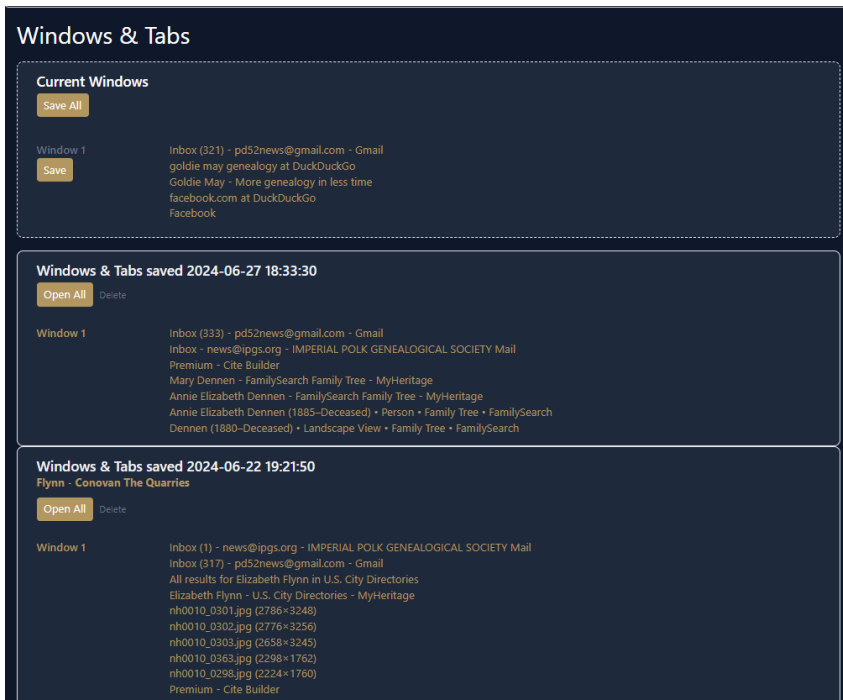

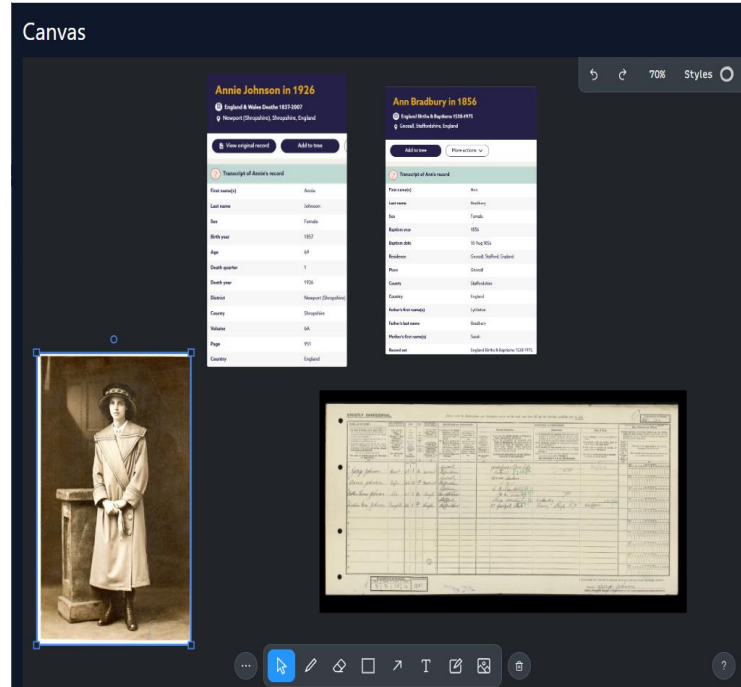

The subway map is a visual representation that displays the geographical locations where our ancestors resided at different points in time.

We also have the option to view a Google map that displays the places today.

Canvas provides the capability to capture snapshots of the current pages we are viewing, import images from our computers, and perform editing tasks on those images.

The Windows & Tabs feature enables us to save all our currently open tabs so we can easily return to them at a later time.
